Good morning Cathie,

I hope you are well. A constituent (please see below) is interested in possibly putting up a fence alongside the back of his property, which abuts Griffith Park.

Since his property is adjacent to the Park, would he need to work with RAP on this? I assume a survey would need to be done to establish the proper boundaries, etc. But is there any involvement for RAP when someone puts up a fence on the boundary of park property?

Thanks,

Dan Halden

Hi Renee,

My name is Ryan Burns, I live at 3140 Hollyridge Drive and also own 3132 Hollyridge Drive. Dan Halden gave me your contact info because I have questions regarding easements and fencing along Griffith Park, which my properties border. I am sure you are aware of the mess going on up here at beach wood and hollyridge, traffic, etc etc. Well, I would like to know if i could put a fence up to stop people from trespassing onto my property and into the restricted area of the girls summer camp. If you would like me to send photo's i will, or we can meet to show you in person.

let me know, thanks for your time,

Ryan Burns

Hi Daniel,

The property owner would need to do a property line survey to assure that the fence is installed within his property. He does not need a formal approval from RAP as long as the proposed fence is within his property. However, depending on the type of fence/walls and height, he may need a Building and Safety permit.

He can contact me if he has any additional questions.

Regards,
Cathie
